

Analytical Chemist (m/f/d) – Tulln, limited contract for 16 months

We are seeking an Analytical Chemist – ideally with experience in Metabolomics – to contribute to innovation in our R&D department. The role involves conducting LC-MS based analyses and actively participating in projects centered around metabolomics and glycomics in animal nutrition and health. We are looking for a hands-on problem solver with a passion for science, laboratory work, and data analysis to join our dynamic team.

At dsm-firmenich, being a force for good is not optional. Diversity, Equity & Inclusion is a shared responsibility woven into our daily work, benefiting to our People, Customers & Communities and driving business value. Equal access to opportunities is a given, belonging is a shared feeling, authenticity is celebrated.

Your key responsibilities

- Extensive lab work (from designing to executing experiments as well as maintenance of laboratory equipment)
- Analytical techniques, including LC-MS based analyses
- Data collection, analysis, and interpretation as well as documentation and communication of results
- Contribute to the development and optimization of experimental protocols/SOPs
- Collaborate with team members to achieve project goals (incl. method development, validation, metabolomics and glycomics)
- Adhere to safety and quality protocols and ensure a clean and organized work environment

We bring

- A rich history and a promising future of bold scientific innovation and passionate creation with our customers
- A space to grow by encouraging and supporting curiosity and an open mindset
- The opportunity to work for a company where sustainability is much more than a claim and is core to our strategy and purpose
- A flexible work environment that empowers people to take accountability for their work and own the outcome

- An eagerness to be one team and learn from each other to bring progress to life and create a better future
- Attractive benefits such as optional Klimaticket for whole Austria (after 6 months of employment), supported canteen, accident insurance for work and private incidents, free drinks, etc.
- We offer you an income based on your qualifications and market conditions, with a minimum annual gross salary of € 42.000 on fulltime basis. Depending on experience overpayment is possible.
- Your place of work: Tulln an der Donau
- Type of employment: Full time for 38,5 hours / week, temporary contract for 16 months

You bring

- Education in biotechnology or related field of life science (B.Sc.)
- Experience in HR-MS based metabolomics; understanding of laboratory workflows, skilled in at least one software for metabolomics data processing is a plus
- Effective communication & documentation skills in English. German is a plus
- Experience with common lab organization & supporting tasks
- Team-focused and goal-oriented work ethic combined with a positive mind set, hands-on mentality, and strong analytical and problem-solving skills

Our application process

Interested in this role? Then please apply online via our career portal.

The process is basically based on the dsm-firmenich application procedure, which is described on the dsm-firmenich career website. For data protection reasons, we can only accept and process applications via our career portal.
